

Antelope Creek Garden News January 2023

Greetings! Antelope Creek Families,

The rains have finally stopped after a very wet month. Spring is around the corner and planting can start soon. We have 2 upcoming events to get us started:

This Sat., Jan. 28th we will be trimming the grapevines from 9-11 a.m. Come out anytime with your trimmers and garden gloves. Older students can assist in the trimming, too.

In March, the date to be determined, we will have our annual garden clean up. Weeds will need to be pulled or whacked, new bark will be spread and we will plant new plants.

Any carpenters out there? I am looking for someone to help build new compost bins. These will be portable and more easy to move around the garden. I'd like at least 2 to be constructed.

Please contact me if you can help with our Jan. trimming date or the compost bins at lgin@rocklinusd.org

Thank you!

Sincerely, Mrs. Gin
